

IN THE CLAIMS

Please amend the claims as follows:

1. (Currently Amended) A gas turbine plant comprising:
an air compressor;
a gas turbine;
a driven equipment, said air compressor, said gas turbine and said driven equipment being operatively connected in series;
a gas turbine combustor arranged between the air compressor and the gas turbine;
a fuel system for supplying a fuel to the gas turbine combustor; and
a heat exchange section provided for the air compressor for heating the fuel from said fuel system by means of a high pressure air as a heating source from the air compressor.
2. (Original) A gas turbine plant according to claim 1, wherein said heat exchange section is housed in the air compressor.
3. (Original) A gas turbine plant according to claim 1, wherein said heat exchange section is mounted to a casing of the air compressor.
4. (Currently Amended) A gas turbine plant according to claim 3, wherein said heat exchange section ~~mounted to the casing of the air compressor~~ has a structure that a fuel passage is formed by an outer cover covering an outer periphery of the casing, one side of the fuel passage being provided with a fuel inlet and a fuel outlet and another side of the fuel passage is provided with a connecting pipe.

5.-27. (Canceled)
